

News Briefs

Absentee ballots available

Absentee ballots for the September 1st Primary and Non-Partisan Election are now available at the Glades Office Building, 2976 State Road #15, Belle Glade.

Voters who will be out of the county on election day may vote their ballots in person at this location.

Voters who will be away, as well as those who are unable to go to the polls due to illness or disability, may have an Absentee Ballot mailed to them by calling 996-4800 or by sending a written request to the Supervisor of Elections, 301 North Olive Ave., Room #105, West Palm Beach, Florida 33401-4795.

Store owners foil robbery

Owners of the Grocery were sleeping in their store at 448 Martin Luther King Blvd, Belle Glade last Sunday morning when they saw a man reach through the broken glass door and unlock the entrance.

Diendonne Brutus, Lini Brutus and Jean Brutus struggled with the man, later identified as Freddie James, age 26 of 699 S.W. 5th Street, Belle Glade.

Police say two of James' friends were standing outside the store and entered the business a short while later.

Wanda Fredricks, age 34 of 416 S.W. Ave. E, Martin Luther King Blvd. and Cedric Jones, age 28 of 262 Holman Court, Pahokee were also arrested.

Officer John Cook of the Belle Glade Police Department said he came upon the incident while he was patrolling the area and arrested the three suspects.

The were charged with burglary on an occupied structure and placed under a \$10,000 bond and transported to the Palm Beach County Jail.

Man bitten on face by woman trying to rob him

A 70-year-old man who said he was just giving a woman a ride home may have later regretted his act of kindness.

Trinidad Elisario of 1605 N.W. 12th Street gave Cynthia Diane Hill, age 31, a ride home about 11 p.m. August 14 when Hill allegedly produced a razor blade and attempted to take Elisario's money.

Police say Hill, whose address was listed as 51 Roosevelt Street, Belle Glade, bit Elisario on the right side of his face and during the struggle Elisario injured his right elbow.

Elisario was assisted by two bystanders, Don Crawford and Randy Bearcraft, who saw what happened and held Hill until the arrival of Patrolman Clarence Throop. She was arrested for attempted armed robbery and battery on a person over 65 years of age. Hill was turned over to the Palm Beach County Jail under a \$3,000 bond. Patrolman Throop recovered the razor blade at the scene at 1540 N.W. Avenue L.

Officer dives in canal to save women

By Brenda Bunting
Editor

Palm Beach County Sheriff's Detective Frank "Duane" Mayo is being called a hero today after he dove in a canal to rescue three women.

Det. Mayo was driving north of State Road 15 toward Pahokee Monday evening when he saw what he said looked like an accident on the roadway.

He was on duty at the time and saw several cars stopped on the road. When he got out of his car he said he could see one of the tires of a car sticking up out of the canal.

"I looked around and nobody on the bank was wet, so I knew the people must still be in the car," he said.

He went into the canal and

Woman to receive settlement in husband's death

By Brenda Bunting
Editor

South Bay--A woman whose husband was killed during a robbery attempt at the Okeechobee Inn June 7, 1990 will receive a settlement worth \$737,831.

Sandra Haynes, of Pelham, Tennessee, the widow of Charles Walter Haynes, settled during a pretrial mediation conference. In a lawsuit filed in Palm Beach County Circuit Court in 1991, Mrs. Haynes said the motel was negligent in failing to provide adequate security for registered guests.

Walter Frank Haynes, the deceased, was a truck driver

from Pelham, Tennessee, who had stopped for the evening at the Okeechobee Inn on SR 715 in South Bay. He was shot and killed during a robbery attempt while at the soft drink machine located on the motel premises.

Two suspects were arrested in connection with the shooting, Barnes Bertram Lampkin and Anthony Chastain. Both are awaiting trial in Palm Beach County.

Michael H. Stauder, attorney for the estate and Sandra Haynes, agreed to the settlement during the pretrial mediation conference. Trial was scheduled for September 1992 before Judge Edward Fine.

Day care center sought for Alzheimer's patients

By Bill Phillips
Staff reporter

Pahokee--Pahokee will be getting an Alzheimer's Day Care Center if city commissioners and the Alzheimer's Association of Greater Palm Beach Chapter can get a location set up and running by January 1, 1993.

The plan calls for renovation of the old Pahokee elementary school cafeteria which is where the Alzheimer's Foundation would like to locate.

Mark Cornett, Coordinator of Patient and Family Services, said, "This center will be for the entire Glades area including Pahokee, South Bay, Belle Glade and may include Okeechobee."

This will bring at least five new jobs to the Glades area. The Alzheimer's Foundation will be looking for two registered nurses and three

nurses' aides and lots of volunteers.

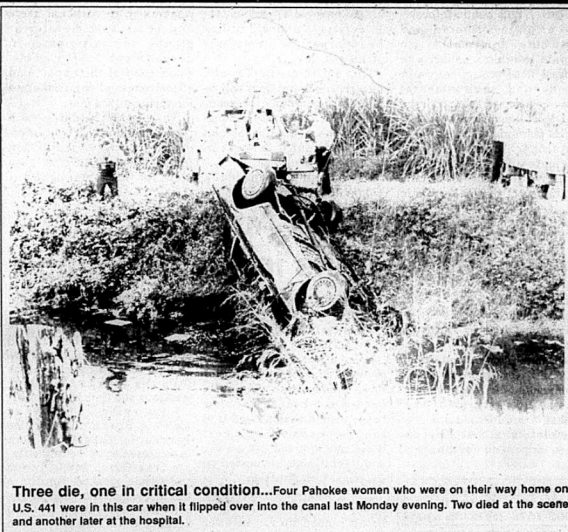

Mr. Cornett said they would be seeking a Glades resident to sit on the board to represent the Glades communities.

There are an estimated 45,000 individuals living in Palm Beach County who suffer with Alzheimer's Disease or some other disease or disorder causing dementia.

Alzheimer's Disease is a progressive, degenerative disease that attacks the brain and results in impaired memory, thinking and behavior. It affects an estimated 4 million American adults. It is the most common form of dementing illness.

More than 100,000 die of Alzheimer's Disease annually, which makes it the fourth leading cause of death in adults, after heart disease,

See Alzheimer's, page 3

Three die, one in critical condition...Four Pahokee women who were on their way home on U.S. 441 were in this car when it flipped over into the canal last Monday evening. Two died at the scene and another later at the hospital.

Pioneer Amelia Houston dies

Glades pioneer and business woman, Amelia Elizabeth Houston is dead at 88.

Amelia Elizabeth Houston was born August 14, 1904 in Irvington, Georgia. She was the daughter of the late Reverend Willis and Daisy Griffin. She moved to Belle Glade in 1933.

On October 22, 1933 she married James T. Houston, Sr. Next October they would have celebrated their 50th anniversary. Mr. and Mrs. Houston had three children, Lola Houston Beale, deceased, and James T. Houston, Jr., and an adopted son, Willie Houston.

Mrs. Houston was a former member of the First Baptist Church of Okeechobee, and later became a member of the St. John First Baptist Church in Belle Glade during the pastorate of the late Reverend S. Randolph. At St. John First Baptist Church, she served faithfully with distinction as a member of the Deaconess Board under the pastorate of the Reverend J.B. Adams.

A progressive activist with the local community, state, and nation, she was affiliated with the following organizations:

- The Greater South Florida District Association (President for over thirty years).
- The Progressive Missionary and Educational Baptist State Convention of Florida, Inc. (President 1972-1986), under her leadership, lead the women in contributing more than \$800,000 on Florida Memorial College Annual Donation Day - President Emeritus from 1986 until her death.

- Women Civic League Club, Founder 1945. (President for more than forty years and during this tenure built a club house located at the corner of Southwest Avenue "E" and Twelfth Street)

- Florida Memorial College, Miami (Board

Member)
• Dist. Bell Chapter #116, Order of Eastern Star, (Organizer)

Mrs. Houston received numerous awards including Woman of the Year of the City of Belle Glade, and was cited as an outstanding leader in the State of Florida and the United States.

On Saturday, August 8, Amelia Elizabeth Houston, a resident of 833 West Avenue A quietly passed away.

She is survived by her husband, James T. Houston Sr.; one son, James T. Houston Jr.; Kansas City, Mo.; an adopted son, Willie Houston, Los Angeles, California; one sister, Pauline Harris, Palmatto, Ca; two brothers,

See Obituary page 8

Mosquito heaven...Old tires are a haven for breeding mosquitoes. City of Belle Glade Assistant Public Works Director Mickey McGahee says the city is offering an amnesty program for citizens who would like to get rid of the old tires in their yards. To participate call Public Works at 996-5865. See related story, page 3.

SFWMD tries to keep public informed

Sixth report in a series of seven by Twila Valentine on the SWIM issue.

One of the elements of the proposed draft of the Lake Okeechobee Surface Water Improvement and Management (SWIM) Plan is the public information element.

South Florida Water Management District (WMD) routinely reports on events occurring in the Lake Okeechobee basin as a part of their communications effort. When the 1989 Interim SWIM Plan was adopted, the public information element was included and established the specific goal of providing citizens with information concerning Lake Okeechobee water resource management issues and to implement a public agencies as a part of the

process of preparing, reviewing and approving the Lake Okeechobee SWIM Plan. The goal for the public awareness program by disseminating to general audiences and students information about Lake Okeechobee water resources and lake management issues. One of the objectives is to develop and distribute materials that inform the general public about the features of the Lake Okeechobee ecosystem, including its physical, chemical and hydrologic features; water quality and sediment characteristics; tributary basins, biological resources; recreational resources; and, the role of Lake Okeechobee in the Kissimmee-Lake Okeechobee-Everglades ecosystem.

See information page 2

Information on SWIM

Continued from page 1

A strategy is suggested which would continue to inform the public about features of the lake's ecosystem and existing district education and communication programs.

Another objective is to prepare and disseminate information that demonstrates the role of the lake in the district's management of water resources.

Under this objective, the strategy the district will use is that within existing district education and public information programs, generate and distribute information to explain the lake's capacity to address flood protection, water supply and environmental resource needs of south Florida, and more specifically, in the SWIM planning area.

Another objective is to originate and implement and initiative that will foster and awareness of the lake's role in

meeting the needs of Floridians for water supply and flood protection, and to understand the demands and impacts on the lake, and enlist support for lake restoration and preservation efforts.

As part of the strategy the public information office will prepare a three-year public communications plan to reflect the major milestones in the lake's research and planning process. Issues and information will be conveyed to various target audiences and will utilize the appropriate communications vehicles.

This entire group of goals, objectives and strategies will be tailored to the Lake Okechobee SWIM Plan and preparation of the communications plan is scheduled to begin in the 1993-94 fiscal year.

The second goal under the communications element of the

plan is to implement a program to encourage public participation in the Lake Okechobee SWIM planning process by soliciting public input during the preparation, review and approval of the SWIM Plan revisions.

The objective proposed to achieve this goal is to create ways for residents, scientists, business and commercial concerns, environmental community, recreational users and other special interest groups to participate in development of goals, assessment of the impact and effectiveness of the strategies for managing the lake.

There would be developed a public participation and inter-governmental coordination process to support the development of lake management strategies.

Open again...The Belle Glade Chamber of Commerce has been closed for a few weeks but is now open for residents and visitors to the city from 9 a.m. to 2 p.m. daily. Secretary Pat Triplet and Executive Director Iris Tamm will be welcoming travelers to the Glades.

Pahokee Housing Authority to renovate 40 units in Fremd Village

By Bill Phillips
Staff reporter

Pahokee Housing Authority Executive Director Julia Hale told commissioners last Thursday the first portion of the Comprehensive Improvement Assistance Program (CIAP) phase I modernization was complete and that PHA has been approved for phase II

funding in the amount of \$1.3 million.

The new funding will be used in Fremd Village on 40 units.

In other business, the roofing company is asking for more money than originally quoted the board. The new board members suggested that the roofer come to the next board meeting and discuss the additional funds requested on the phase I construction.

A house which was purchased by the Authority is being placed up for sale for \$42,500. The house is located at 428 Cypress Avenue. It is

hoped a tenant will purchase the house.

A lease agreement was approved between the PHA and the Tenants Association for the tenants to lease the club house from the PHA to hold their meetings and civic functions in.

Presented plaques to Patricia Brown and Bernice Peterkin for outstanding work in volunteerism at the Authority.

Transferred \$48,000 from the administrative fund into the modernization fund to pay for the computer system because HUD said the system must be paid for by the Administrative fund.

Firm questions accuracy of studies on Stormwater treatment areas

A state-sponsored engineering study of the proposed stormwater treatment areas that form the cornerstone of the state's agreement to settle the Everglades lawsuit with the U.S. Justice Department says the STAs are seriously flawed and cannot be depended upon to function as forecast.

The study, conducted for the Department of Environmental Regulation by the engineering firm of Post, Buckley, Schuh, and Jernigan, Inc., was obtained by the Florida Sugar Cane League attorneys in a public records search.

The study analyzed the data and the models that served as the basis for determining the size and predicting the effectiveness of the STAs. The firm's analysis suggests that the models "will not reasonably simulate the operation of the STAs."

"We have serious reservations concerning the accuracy with which this model simulates the flow through the system," the PBS&J study said. It said the equation used in the models has a "fudge factor" which changes the results.

The study added that "the

corroboration of the results is of little surprise, or value."

Sugar and vegetable farmers in the Everglades Agricultural Area have argued that a decision to flood 58 square miles of productive farm land and spend in excess of \$400 million to create the STAs is not supported by scientific research.

The study was ordered by DER to examine the South Florida Water Management District's application for a permit in connection with the District's Everglades program. The study examined the viability of the plan to reduce phosphorus in water discharged through the District's pumps into the Everglades.

"The state study confirms the farmers' position that there is precious little science in the STAs," said Robert Buker, chairman of the Florida Sugar Cane League's Environmental Quality Committee. "It points out once again there are serious technical and scientific questions about the viability of the STA plan."

In a separate but related development last, the District admitted it made a mathematical error in the formula used to design the STAs and omitted the amount of bypass water to be treated. These errors caused the undersizing of the STAs by 9,000 acres, the League said.

A University of Florida agricultural economist contends that flooding 58 or more square miles of farm land to create the STAs and taxing the farmers could cause economic chaos, putting 11,000 to 38,000

people out of work.

The creation of STAs is a central part of the state's settlement of the suit by the federal government over the quality of water entering Everglades National Park and the Loxahatchee National Wildlife Refuge. The state agreed to convert 35,000 acres of productive farmland into STAs in an attempt to clean water cleaner than rain. The STAs would hold stormwater runoff from the farms in the Everglades Agricultural Area before allowing it to the park or the wildlife refuge.

The theory behind this plan is that phosphorus in the farm runoff would settle out of the water in these storage areas before the water continued on its way into the Everglades.

The PBS&J study indicates the techniques appeared to have been used to justify a predetermined result. PBS&J said Murphy's Laws on Technology: "Always draw your curves, then plot your reading" ... referring to calibrations of factors in the formula used to design the STAs.

Also: "Following the adoption of these parameters, the 'apparent' long term average settling rate was back-calculated."

Also: "The phosphorus modeling, aside from the use of questionable settling concept, appears to have some flaws. These problems coupled with the hydraulic modeling shortcomings cast a suspicious shadow on the model, it's results and the interpretation of those results."

And: "...the techniques used to compute the flows have been far too simplified to reasonably simulate the anticipated field operating conditions." Similarly PBS&J found errors in the computation of phosphorus loads in the various compartments and cells of the STA models. The results, it said, was that the "error in the model grows with each iteration." In another instance, the STA water flow computations were based on seven-foot diameter culverts flowing full. But, the PBS&J study observed, this "does not appear justifiable," since the depth of the water is only four feet.

The farmers have proposed alternative, and proven effective, methods for reducing phosphorus in the runoff. The farmers' plan included the use of pollution credits, similar to those in Federal 1990 Clean Air Act, the implementation of effective pumping and farming techniques, as well as other water handling and control procedures.

Unlike the State's plan to flood farm land, Buker said, the alternatives proposed by the farmers do work and will reduce phosphorus in farm water runoff at a fraction of the cost, without ruining priceless productive farm land or destroying a valuable industry.

HEADACHES

Also called sick headaches, a typical migraine attack, begins with a dull throbbing ache in one area of the head and progresses to a piercing pain. These tortuous attacks may be preceded by a change in the field of vision - a flickering before the eyes, flashes of light or a partial blocking of the vision. They are sometimes accompanied by nausea or vomiting. They are seldom relieved by aspirin. Their duration is from 2 to 48 hours.

19-year-old confesses to robbing Barnett Bank

A nineteen-year-old man is in jail after he allegedly robbed the Barnett Bank at approximately 9 p.m. on August 14.

Walter Dumont Myers of 340 S.W. 6th Street, Apartment 4, Belle Glade is being held in the Palm Beach County Jail on Federal bank robbery charges and is awaiting his first appearance before a Federal magistrate to determine whether or not he will be detained while awaiting trial.

Officers from the Belle Glade Police Department responded to the call at the Barnett Bank and were told that a man had entered the bank and presented bank teller Gay Whittington

with a threatening note demanding money.

Ms. Whittington complied with the demands and turned over to him a undisclosed amount of money from her cash drawer.

The robber then ran from the bank and went south on South Main Street.

Officers set up a perimeter in the area around the bank and Patrolman Martin Segura, who was stationed at the site, said he saw a man who fit the general description of the bank robber and who was acting suspicious at the Days Inn on the east side of the motel.

Patrolman Segura, along with Sgt. Ron Shunk,

Patrolman Robert Wheelihan and Sgt. T.D. Murray confronted Myers at his room in the Days Inn.

Police say Myers, who is also known as "Juan Myers" had money in his room that was later traced to the bank. Police say he also had a substantial amount of money on him that was traced to the bank.

Myers gave a full confession to Detective Sergeant Albert Dowdell and Special Agent Ron Miller of the F.B.I. at the police station.

Police say Myers has an extensive criminal record dating back to 1989 and is a convicted felon in the State of Florida.

City of B.G. will pick up old tires

The City of Belle Glade is sponsoring a one-time clean up of old tires.

Citizens can call the Public Works Sanitation Department and they will come by and pick up the tires. The telephone number to call is 996-5865 (JUNK).

"This service is for Belle Glade citizens only," said Mickey McGahee, Assistant Public Works Director. Old car tires normally

cost a person fifty cents for disposal and a dollar for truck tires.

Mr. McGahee said this is another effort of the city to help with the mosquito problem, since mosquitoes breed in standing water in old tires and other containers.

"This is a bad problem and this is another stop the city is taking to eradicate the mosquito problem," Mr. McGahee said.

The Florida Sugar Cane League was honored by the Florida Game and Fresh Water Commission for providing a \$10,000 grant to Camp Bluebird at the Everglades Youth Camp, located within the Corbett Wildlife Management Area in Palm Beach County. Camp Bluebird, a joint effort of St. Mary's Hospital's Community Cancer Program and Telephone Pioneers of America, holds special sessions for adults who have been diagnosed with cancer and is the only adult cancer camp in the state.

Pictured above are Dr. Peter Rosendahl, Vice President of Environmental Relations for the Florida Sugar Cane League, and Connie Tucker, the League's Director of Public Relations.

Drowning

Continued from page 1

pried open the back door of a Chrysler Fifth Avenue. He pulled three women from the car, one at a time and put them on the canal bank.

"I didn't know there was a fourth person in the car. I felt around and couldn't find anyone else," said Det. Mayo.

Two of the women were revived at the scene and two died. Dead is the driver, Camilla Robinson, age 20, and Annita White, age 27.

Daisy Robinson, mother of Camilla Robinson, and Wilhemina Hall, age 48, were taken to Glades General

Hospital and then airlifted to St. Mary's Hospital. They were listed in critical condition. All the women were from Pahokee.

Det. Mayo said that after he pulled the first woman out of the canal, Det. Robert Quinones with the Palm Beach County Sheriff's Office stopped, along with an unidentified man from U.S. Sugar and three nurses from Everglades Memorial Hospital, including Shirley Day. They helped do CPR on the victims, on the canal bank.

According to Florida Highway Patrol Trooper

Johnnie Carter, the four women were on their way home when the driver Camilla Robinson lost control of the car.

Trooper Carter said initial reports were that Robinson tried unsuccessfully to pass a car and then swerved back into her lane, hitting the guard rail two times and then flipping into the canal.

An eye witness later told the trooper that the driver was not trying to pass a car, but just lost control of the 1985 Chrysler. Trooper Carter said Robinson was speeding.

Daisy Robinson remains in critical condition at St. Mary's.

Alzheimer's

Continued from page 1

cancer and stroke.

Symptoms of Alzheimer's Disease include a gradual memory loss, decline in ability to perform routine tasks, impairment of judgement, disorientation, personality change, difficulty in learning, and loss of language skills. There is a variation in the rate of change from person to person. The disease eventually renders its victims totally incapable of caring for themselves.

The Day Care Program will

provide the following benefits to an Alzheimer's patient:

- reduce the fear, frustration, and isolation associated with the disease.
- provide an environment that is predictable, self-evident, stimulating, and recreational.
- provide basic health monitoring.
- help participants remain at the most optimal level of functioning; therefore preventing premature institutionalization.

For family members and

caregivers it:

- provides regularly scheduled periods of relief from caregiving.
- offers counseling and supportive services.
- provides the most cost-effective, community-based alternative to institutionalization.
- Pahokee city commissioners assured representatives from the Alzheimer's Foundation they would work closely with them in meeting the necessary deadlines.

SFWMD plans meeting in Clewiston

Staff members from the South Florida Water Management District will be in Clewiston at the John Boy Auditorium at 7 p.m. on Friday, August 21 to hear comments from local residents about the

SWIM Plan now in progress that will affect agriculture, local jobs and the economy.

According to Jo Hatton, a farm wife and concerned Glades resident, this will be an opportunity for citizens to be

heard and to ask questions. She urges Glades residents to try to attend the meeting. The implementation of the SWIM Plan is expected to impact jobs in the area and calls for acreage to be taken out of production.

Now we have limited choices

It will be a distasteful decision when we go to the polls in November to vote.

I don't care for either of the candidates running for president and I know many people who feel the same way.

At least when Perot was running we had that alternative, but now we can only choose between a president who has already done a poor job of running this country and a man who I can't bring myself to trust with such an important job.

Since Ross Perot will still be on the ballot in

Florida and many other states, I believe I will vote for him.

At least he has workable ideas on how to balance the out-of-control deficit that is bringing this country to its knees. We cannot continue to operate this nation with a deficit this large and growing every day.

I think the Republican and Democratic party will both be surprised in November by the number of voters who vote for Perot or other write-in candidates.

Editor's note: This **Speak Out** was edited for brevity while hopefully retaining the caller's message. Thank you for **Speaking Out**.

Rincon latino

por Gaspar Richardo

La Bandera Del Exiliado

La cosa empezó así. Hemos salido una noche, tras la jornada, a coger aire y mirar las vidrieras por la Avenida A, que era donde se concentraba el comercio en este nuestro querido pueblo de Belle Glade. Dicho sea de paso, hace de eso 29 años.

Estábamos mi mujer y yo mirando una máquina de coser portátil en la vidriera de una de las tiendas, La Casa Badcock, cuando al notar nuestra presencia nos invito a pasar su dueño, Curtis Slade. Tras demostrarnos la máquina y decirle nosotros que algún día volveríamos para comprarla, nos dio a firmar un ticket he insistió decidido a que nos la lleváramos.

—Ustedes llegan a estos pueblos con la ropa puesta, mal nutridos, desconociendo el idioma, encogidos y por mas que traten de disimularlo, con la amargura reflejada en el rostro. Y antes de que transcurra un año, ya tienen ropa, lucen saludables, aprenden a chapurrar el inglés — con cuatro palabras se las arreglan — y aunque la procesion vaya por dentro exhiben una sonrisa. No importa que hayan venido tan solo hace un mes y que no tengan dinero, ya lo tendrán.

Hemos tenido trato con docenas de cubanos y solo en una ocasión parecía que habíamos fallado. Pero volvió a los pocos meses y liquidó su deuda. Se había ido secretamente a un campamento militar, en su obsesión de ir a pelear por su Patria.

Hemos reproducido en el párrafo anterior — con nuestras propias palabras — las de aquel americano que, sin habernos visto antes y sin

haberselo pedido, nos extendió una carta de credito mas valiosa en el orden moral que toda la mercadería de su tienda. Porque ayudó a infundirnos confianza en ellos, nuestros anfitriones, y, fundamentalmente, en nosotros mismos.

Andábamos tan extraviados!, alejados cada día mas del camino de circunvalación por el que habían transitado nuestras vidas. En una tierra desconocida cuyas puertas se habían "forzado" tratando de reivindicar la conducta de quienes al clavarnos una daga en la espalda, se la habían clavado a si mismos en el pecho.

Es obvio que el americano de nuestra historia nos estaba mirando en perspectiva, dada su experiencia derivada de los nuestros, a los que el había conocido antes. Tan agradecidos quedamos de él, que casi treinta años después lo estamos recordando.

Aquí en los Estados Unidos y en cada punto geográfico en donde se levanta la Bandera del Exiliado, el cubano ha logrado sobrevivir — en ambientes no siempre tan acogedores como sus ipicios —, y ha demostrado su valer en todos los campos, llegando hasta presidir corporaciones multinacionales.

Lo que he alcanzado no es producto de la improvisación. En todos los campos, nuestro gran instrumento ha sido el trabajo. Unido a él, la lealtad, el interés y la inteligencia, dones innatos que recibimos de nuestro Creador, y de los que haremos derroche para reconstruir, el día ya proximo en que cese la ignominia y volvamos a encontrarnos el el suelo sagrado de Cuba.

Guest Editorial

By Ed Fielding
Candidate for District 23

Editor's note: Eight candidates are running for the 23rd Congressional District seat. The 23rd District is one of the newly drawn districts that resulted from reapportionment. This district has no incumbent. Parts of our area are also under District #16 where 3 candidates are running.

In order to give our readers an opportunity to get to know all the candidates, we have asked them to write in their own words, who they are, why they are running and what issues they will address if elected. Before the September election we hope to feature as many of the candidates as possible. Hopefully, the information they give will help our readers make informed decisions.

Our nation is poised at a crossroads and the American people know it. We have won the cold war, but are losing the battle on the homefront — our streets, neighborhoods and schools are not safe. As parents, employees, taxpayers, and fellow citizens, we are discouraged, frustrated and ANGRY. We want immediate dramatic changes concerning jobs and economic stability, schools, crime, health care and Congressional corruption.

To help put Americans back to work I propose:

1. direct tax incentives for new job creation for Americans; 2. reinstate investment tax credit at least 10%, non-transferable; 3. balance federal budget to increase private sector capital; 4. no new taxes, control spending; 5. line-item veto to control Congressional pork; 6. zero capital gains for 15% tax bracket; 7. implement Grace Commission Report on governmental cost control.

Crime is destroying our quality of life — the young, elderly and vulnerable are at risk. I propose:

1. prison inmates to work full work week and receive at least minimum wage to pay for their own upkeep, restitution, and any balance to their families.
2. inmates to attend school in evenings;

literacy required for parole; 3. create Community Development Corp. (similar to Peace Corp) to direct talent and enthusiasm to improving our cities with self-help projects, e.g. parks, gardens, and labor intensive service oriented community businesses; 4. recipients of food stamps, AFDC, or welfare to provide 1 hour labor for every \$10 in value received; 5. judicial reforms — make TRUTH the objective of legal, inquiry and change liability laws to give greatest weight to one's own accountability.

Educational reform is essential for Americans to be competitive in the world market. I propose:

1. make parents effective consumers and hold educators accountable; 2. all schools must make public the amounts, sources, and uses of funds; 3. private companies would administer nationwide testing, with data aggregated by grade for each school; 4. parents to directly receive a voucher with freedom to place their student wherever they like, within guidelines.

Health care costs are another area of concern. I propose:

1. prohibit physician self-referrals; 2. change present liability and tort system placing greatest emphasis on one's personal accountability; 3. keep patients involved in the process by being responsible for some small percentage of cost of any test and medicine.

Beset on every side, we turn to Congress for guidance and relief. Congress is the only body with Constitutional power to raise taxes and authorize spending. But we see an imperial Congress of aristocrats who seem only concerned in maintaining seniority, perks and privileges. I propose:

1. dethrone Congress; make Congress comply with all laws, rules and regulations that American businesses must meet; 2. immediately cut Congressional staff in half; then review to reduce further; 3. Require all taxing and spending bills to be by recorded vote; all bills introduced must come to a vote; 4. limit committee chairmanships, secret vote each term.

Let's join together as advocates for the taxpayer, advocates for the family and advocates for a strong America.

Have you changed your address since the last election?

If you have moved from the address listed on your voter registration identification card, fill in your new address on the back of your voter registration identification card and mail it to the elections office, 301 North Olive Avenue, Room # 105, West Palm Beach, Florida, 33401. If you need further information, call the elections office at 996-4800.

Candidate profile

Mark Foley Running for Florida Senate District 35 (Rep)

My name is Mark Foley.

In an effort to bring about the change voters in Florida want, I am running for the State Senate District 35 seat (currently held by 14 year incumbent Eleanor Weinstock). I believe we need to go forward into the 90's with a new and stronger voice in Tallahassee.

I was one of the youngest elected officials in the state of Florida when I was elected to The Lake Worth City Commission at the age of 22. I created and successfully managed the Lettuce Patch Restaurant at the age of 20 and went on to form a highly successful catering operation. I have been involved in the real estate business since 1978 and have concluded private sales in my career ranging from small residential sales to major shopping centers and golf courses.

As a member of the Florida House of Representatives, I have worked towards reform in every aspect of state government. I was active in the passage of legislation to reform campaign financing, limiting gifts to elected officials, and a strong proponent for campaign term limitations. As a member of the HRS committee I was very involved in the restructuring of the HRS delivery system to eliminate the bureaucracy of Tallahassee and to redirect resources to the communities to serve the people. When the budget writers tried to eliminate the only state funded tuberculosis hospital, I lobbied and convinced the Governor and the Legislature to restore the program due to the rise in reported cases of this deadly disease.

When the Department of Transportation attempted to remove the tall, canopied trees from AIA in the town of Gulfstream, I introduced legislation to not only preserve this

beautiful stretch of scenic highway, but to create the first ever state designated Historic and Scenic Highway to ensure the preservation of these trees. As a member of the tourism and economic development committee, I have been most active in securing legislation encouraging the expansion of the motion picture industry in Florida.

I am also concerned that Tallahassee has become caught up in excessive regulation without addressing the economic train it creates. For too long the state has careened heading into lawmaking without considering or anticipating the effects of such and irresponsible legislative approach. The Surface Water Improvement Management (SWIM) plan is the perfect example of this type of "shotgun" approach toward legislation when pinpoint marksmanship is necessary.

Over the past two years, I have grown to resent the "business as usual" mentality so rooted in career politicians. They have forgotten the needs of the people back home. I will take the "real world" lessons I have learned, as a small businessman and taxpayer, to Tallahassee and fight to protect the quality of life we all deserve. I believe that government wastes far too much of our tax dollars and strongly believe the state needs to team up with the business community to work more public-private partnerships to solve our problems. I firmly believe the only way to pay for government services is not through higher taxes, but through job creation and expanding the tax base. It is with this understanding and approach to government that I ask for your support in this election.

Joint wetland agreement set

Palm Beach County and the Florida Department of Environmental Regulation (DER) have entered into an agreement for joint wetland permitting, which began August 10th.

The agreement establishes a process where the County's Department of Environmental Resources Management (ERM) will provide permitting, compliance and enforcement for short form wetland permit applications for projects in Palm Beach County. The County will be doing this on behalf of the Southeast District office of DER.

This agreement will streamline the regulatory process by substantially eliminating the duplication of effort between the two agencies.

In order to achieve that goal, ERM staff will process short form wetland permit applications for both departments. The end result will be one final agency action which provides both DER and ERM authorization.

According to the agreement, ERM staff will also handle the normal processing of short form permit applications, including preparation of completeness summaries, exemptions, general

permits, as well as non-binding jurisdictional determinations.

Because of this, permit applicants and agents should see a time savings through coordinating with one agency instead of two. However, projects involving standard form applications or those for which a state of federal agency, or Palm Beach County is the applicant will not be processed according to the agreement.

Applicants are encouraged to submit permit applications with the appropriate DER and ERM fees directly to ERM in order to avoid processing delays, although you'll be able to drop the application off at both agencies.

Permit application fees will continue to cover the agency's fees, and checks should be made out separately to cover the agency's fees.

Those involved with the agreement hope that it will result in a streamline process for the regulated community without sacrificing protection of valuable wetland resources.

If you have any questions, please contact ERM at 355-4011.

He's not bored...17-year-old Kenella Collins is enjoying his summer vacation by hanging out at the Lake Shore Pool. He took a backside off the board while his friends cheered him on.

U.S. and Mexico reach agreement; could hurt Glades!

Florida Congressman Tom Lewis voiced his first reaction to the announcement that the United States and Mexico have reached consensus on a North American Free Trade Agree-

ment (NAFTA). "I remain Skeptical about the effects of the NAFTA on Florida," said Lewis, the only member of Congress from Florida on the Agriculture

Committee. "I plan to go over this agreement with a fine-toothed comb. Any agreement must contain adequate mechanisms to allow Florida's fruit and vegetable industry to

compete fairly in our own markets."

The agreement will be initiated sometime in early September after the Congressional recess. Legal

text outlining the specifics of the agreement will be available for Congressional review for 90 calendar days. Once the final agreement is signed, which is expected early next year, Congress will have 90 legislative days to pass the agreement.

The North American Free Trade Agreement, designed to eliminate trade barriers, is expected to create a trading bloc between the United States, Mexico, and Canada of 360 million consumers and a \$6 trillion market.

"The long-term benefits to America from a NAFTA in terms of investment are encouraging," said Lewis. "But, I simply cannot ignore the potential short-term devastation the agreement may have on Florida."

Florida's \$6.2 billion agricultural industry, the

second largest industry in the state, could be severely impacted if the agreement does not contain proper safeguards to ensure fair competition between Mexico and the United States. Florida's non-agricultural economic base would also be affected.

Total job losses due to market and production reductions for the fruit and vegetable industry are estimated to be 60,000 in addition to the 24,000 lost field jobs. Losses for the fruit and vegetable industry could be as high as \$300 million.

This agreement was put together on a handshake and could very easily fall apart like a house of cards. We have a long way to go before NAFTA is actually enacted," concluded Lewis.

"Florida has too much at stake for us to accept a mediocre agreement."

Eagle Scout still

collecting food for R.C.

"It only takes a little...to help a lot," is the motto Kenny Lutz has used this summer for his Eagle scout project in conjunction with the American Red Cross.

Throughout the summer, he and members of Boy Scout Troop 622 have collected canned goods from the barrel located at the front entrance to U-Save. The non-perishable items donated by customers have been stored in the American Red Cross Community food pantry to aid disaster victims.

"We collected food all summer, but we still need more," said Lutz.

On August 11, Lutz and several scouts tried to draw attention to the food barrel by distributing flyers that point out that the difference the donations will make to a family who might otherwise go without.

"I hope U-Save shoppers will make one all-out effort to fill the barrel before school starts," said Lutz. "If every customer would just donate one can, we could really help our community."

Citizen Volunteers needed for Probation and Parole offices

The Florida Department of Corrections recognizes the need for community volunteers to assist in its primary mission to protect society. The Probation and Parole Office in Belle Glade is seeking individuals, groups, or organizations willing to provide unpaid services. Citizen volunteers have the unique position of demonstrating that someone cares and will be instrumental in helping to bridge the gap between the offender and the community.

Volunteer services could include but not be limited to assistance in obtaining employment, writing job resumes, providing specialized training, assisting with food, clothing, shelter, medical care, dental services, transportation, counseling, optometry, legal assistance, psychological services, recreation activities or other meaningful, quality life services.

Volunteers for the Department of Corrections are screened and selected and given orientation and training. To be a volunteer requires abiding by a code of ethics, observing confidentiality of offenders, obeying Department Personnel Rules and Regulations.

Hopefully, citizens of the Glades area will recognize the

opportunity to be a volunteer. This is a chance to provide valuable community service and assistance to area offenders. Anyone interested should contact Jerry C. Arline, Sr., Probation and Parole Supervisor, 996-4864. Mr. Arline will provide further information or will assist in completing the necessary steps to become a volunteer.

Bloodmobile schedule

The Palm Beach County Blood Bank Bloodmobiles will be welcoming donors at the following location this week:

South Bay Growers

U.S. 27 South, South Bay
9:00 a.m. - 1:00 p.m.

P.B.S. Possee champs

Belle Glade's P.B.S. POSSE Softball Team has done it again.

They are the A.S.A. State Champs. The A.S.A. State Championship was held in Naples on August 9th.

They have also qualified for the A.S.A. Regionals which were in Tampa on August 15th. Results were not in at press time.

This is the second time in two years the team has taken the state championships.

Coaches for the team are Linda Welch, Frank Williams, and David Bailey.

CORRECTION

In last week's edition of The SUN, we said in a 61st wedding anniversary announcement Mrs. Row B. Myers played the organ at the Methodist Church. She plays the organ at the Everglades Presbyterian Church. Mr. Myers is also active in the Presbyterian Church. We apologize for the mistake. Karen Corbin is the organist at the Methodist Church.

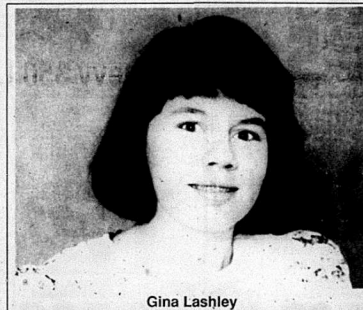

Shirley C. Vickers and Raymond J. Fordham

Lashley - Ensley engagement told

Mrs. Roberta Walden Lashley of Pahokee, announces the engagement of her daughter Gina to Mr. Dillard David Ensley, son of Mr. and Mrs. Dillard Dewey Ensley, Jr., of Sparks, Georgia.

She is the daughter of the late Mr. Jimmy Harold Lashley and the granddaughter of the late Mr. and Mrs. Alpheus Marvin Walden.

He is the grandson of the late Mr. and Mrs. Dillard Dewey Ensley, Sr. and the late Mr. and Mrs. Headland, Alabama.

Gina Lashley

Vickers

Fordham

Mr. Welbert Warren and Mrs. Katie M. Warren wish to announce the engagement of their daughter, Shirley C. Vickers to Raymond J. Fordham, Jr.

Miss Vickers graduated from Glades Central Community High School in 1977 and presently is employed with the State of Florida at Glades Correctional Institution.

Mr. Fordham is the son of Mrs. Ellene Josey-Fordham and the late Mr. Raymond J. Fordham, Sr. He graduated from Lake Shore Junior-Senior High School and is presently employed with the State of Florida Unemployment Compensation Division of Claims.

Their wedding will be held on September 26, at 5 p.m. at Mt. Calvary Baptist Church, Radville in Belle Glade with the Reverend Leon Camel Jr., officiating.

A reception will immediately follow the wedding at the Belle Glade Municipal Civic Center. All family and friends are invited.

Co-Tran offers Airport service

CoTran buses will begin providing service to and from Palm Beach International Airport beginning Monday, August 24. This marks the first time in the history of CoTran that it has provided service at the airport.

Route 4S, which runs east and west from Drexel Plaza on Okeechobee Boulevard to the Palm Beach County Courthouse and the Palm Beach Mall will make the stops at the airport.

Persons using the service can get transfers from drivers and connect with other routes that cover all of Palm Beach County. The service runs Monday through Saturday.

CoTran officials also announced that two stops have been added to Route 11 in Belle Glade and Pahokee. New stops are at the Glades Amound development off Main Street in Belle Glade and at Everglades Memorial Hospital in Pahokee. This service also will begin August 24.

Growers watch closely

By Bill Phillips
Staff reporter

Many Floridians may be learning to speak Spanish and making a "Run for the Boarder," if the N.A.F.T.A. Agreement goes into effect early next year and approximately 84,000 jobs are lost to Mexico.

Area growers may have to compete with Mexico if they want to sell their vegetables next year. On August 12th it was announced that the United States and Mexico had reached an agreement on the North American Free Trade Agreement (NAFTA).

According to Congressman Tom Lewis (R), the agreement

will be initiated sometime in early September after the Congressional recess. Once the final agreement is signed, which could be early next year, Congress will have 90 legislative days to pass the agreement.

Reaction from area growers is mixed but most feel this will have a devastating effect on the Glades and the entire state of Florida. One area grower who asked not to be identified said, "First, they cut our wrists with the SWIM Plan and now they are cutting our throats with this agreement."

Mexico, unlike the United States, does not have the

restrictions placed on them by the Food and Drug Administration, The Environmental Protection Agency, Department of Agriculture, Department of Labor (wages), The Internal Revenue Service, and the many other governing agencies and legal aid attorneys to keep Mexican growers on their toes. The result is a cheaper gown, cheaper harvested, and heavily chemically dusted product at a much lower price which will drive American prices down, according to an area grower.

It has been estimated that the impact on the state of Florida alone, could cost the

state \$300 million per year with 60,000 jobs lost in the fruit and vegetable industry and another 24,000 lost field jobs.

At a time when Glades farmers are trying desperately to sort out the SWIM Plan fairly and come to grips with environmentalists, this latest development could put many small farmers over the edge forcing them to stop farming all together.

To Mexico, this trade agreement is very good. It will help stabilize a failing economy and put many of Florida's 84,000 agricultural jobs in their country.

Student returns from Univ. of Mich.

Glades Central High School Senior Mark Crosby just returned from the University of Michigan. For the past four weeks Crosby was a student enrolled in the Summer LEAD Program sponsored for honor graduating minority students from all over the country. He was among 300 students selected from 3,500 applicants applying for admission into the prestigious program sponsored by corporate businesses. Mark completed the program with an A- in all academic areas.

Mark truly enjoyed his stat at the University of Michigan. He was able to network with many corporate executives and gained first hand knowledge of what it takes to actually get and keep a job.

Upon graduating from Glades Central High School this year with the class of '93, he plans on attending Morehouse College and pursuing a career in Bio-Chemical Engineering. Mark was recommended for this program by Business Education Teacher Mrs. Carolyn J. Brown. She felt Engineering and Computers that this would be an excellent way of gaining hands-on experience and be able to meet the business sector.

P.I.E. seeks host families for students

International high school students are scheduled to arrive soon into the Belle Glade area academic homestay programs, and the sponsoring organization,urgently needs a few more host families. With just over one month until the student are scheduled to arrive, the organization has placed a high priority on the placement of the few remaining exchanges.

According to John Doty, Executive Director of Pacific Intercultural Exchange (P.I.E.),

the foreign teens are all between the ages of 15 and 18 years, will have their own spending money, are fully insured and are anxious to share their cultural experiences with their new American families. P.I.E.'s academic homestays range in length from one semester to a full academic year, where the students attend local public high schools.

P.I.E. community representatives match students with host families by finding common interests through

informal in-home meetings and provide year-round support to the students and host families. Prospective host families have the opportunity to review student applications and select the "perfect match". As there are no "typical" host families, P.I.E. can fit a student into just any situation, whether it be a single parent, a childless couple, a retired couple or a more traditional large family.

Doty says that there is currently an urgency to place the Yugoslavian students

accepted for the program because of the civil unrest in the country. "The student visa applications have already been sent, but the final immigration documents cannot be issued until the students are matched with host families," he says. "With the rapidly changing political climate, we are anxious to bring the students into the United States as soon as possible."

In addition to the Yugoslavians, for 1992, P.I.E. has students from Spain,

Germany, Argentina, Brazil, the Soviet Union, Colombia, France, New Zealand and many other countries. P. I. E. is a non-profit educational organization that has sponsored more than 15,000 students from 18 countries since its founding in 1975.

Belle Glade area families interested in learning more about student exchange or viewing P.I.E. student applications may call John Doty at P.I.E.'s International Headquarters (toll-free) at 1-800-245-6232.

Elvis sited in Virgin Islands

St. Vincent, British West Indies - The nation island nation of St. Vincent has just released a set of Elvis Presley postage stamps - beating the U.S. Postal Service by nearly a year.

Each of the nine stamps is about four time the size of the proposed U.S. stamp, and each stamp has a face value of \$1.00. "They're really quite stunning with all the colorful images printed together on the same commemorative sheet," added Tilson.

The United States will be issuing only one Elvis stamp in 1993 - the younger Elvis, based on the outcome of the national vote taken by the total postal service. A postal spokesperson has indicated that at least 300 million U.S. stamps will be printed.

"When you compare that to St. Vincent issue which is a limited edition of a few thousand sets worldwide, rather than millions, you can see the appeal that the St. Vincent stamps will have to stamp collectors and Elvis fans," pointed out Tilson.

The St. Vincent issue is legal for postage in St. Vincent and recognized by postal authorities throughout the world.

For information on obtaining an Elvis stamp collection, contact your local post office in your community.

A mystery in Belle Glade

By Bill Phillips
Staff reporter

Cosgrove and Meurer Productions will be in Belle Glade shooting an episode of "Unsolved Mysteries," the hit TV show Friday and Saturday.

While it is not expected that Robert Stack of Elliott Ness fame from the "Untouchables" will not be here on location, at least 15 people including the production crew and actors will be in Belle Glade for four days.

Mr. Stack is the show's master of ceremonies on the weekly hit series.

Angela Delgado, Teresa Howard, Terri Peade and Jacqueline Caramma of TJ's Catering Service will be catering daily meals for the staff while they are in Belle Glade filming.

What do you feed the stars? According to Claudio Caramma owner of Dixie Fired Chicken and also of TJ's Catering, Lasagna, Southern fried chicken, collard greens, corn bread and chicken Parmesan.

The old saying is "The way to a man's heart is through his stomach."

Magaly Fernandez Mendez, DDS
